## Transparent Pricing

- 15p per match upload covers direct computing costs — servers, bandwidth, storage, and processing.
- 18p per match upload covers customer and user support, maintenance, security, upgrades, and ongoing development.

That makes 33p per upload. With an average of 4 uploads per player per month, the cost is £1.33 per player if paid monthly.

*(Players on average playing two matches a week, 8 matches a month but only one player uploading the match result)*

Clubs choosing annual billing receive a 25% discount, reducing the cost to £1 per player per month (£12 per year) which includes unlimited use – i.e. Players playing more often.

*(See the pricing table for different ladder sizes on the attached sheet.)*

***A very small increase in court fees (less than 50p) would comfortably cover the ladder costs.***

Customers are invited to use the payment options at <https://sportssolutionspro.com> following their free trial and ladder size selection where they can also review our Data and Privacy and Refund policies.

We thank you for your custom, and please do not hesitate to contact us at [support@sportssolutionspro.com](mailto:support@sportssolutionspro.com) or on 07432 272573 .

Yours sincerely,

Graham Jagers
